Mosquito Control Activities Scheduled for Week of August 12, 2019

MEMPHIS, TN – The Shelby County Health Department’s Mosquito Control Program routinely traps and tests mosquitoes for the presence of West Nile virus (WNV). Mosquitoes positive for the West Nile Virus have been identified in the following zip codes in Shelby County: **38002, 38016, 38053, 38104, 38106, 38108, 38109, 38111, 38112, 38114, 38115, 38116, 38117, 38118, 38119, 38122, 38127, 38128, 38133, 38135.**

Residents of zip codes where the virus has been detected are advised to be especially careful to avoid mosquito bites. The first human case of West Nile Virus has now been reported in Shelby County, indicating the virus is being transmitted to humans by mosquitoes. The Health Department recommends the following precautions to prevent mosquito bites:

- Wear long pants and long-sleeve shirts when working or playing outside, especially in the early morning and evening hours when mosquitoes are most active.
- Wear mosquito repellants containing DEET, according to label directions.
- Install or repair screens on windows and doors.

Since February, the Shelby County Health Department’s Mosquito Control Program has treated areas by applying larvicides to standing bodies of water. These actions are consistent with efforts to be proactive in decreasing the adult mosquito population. Larviciding is the practice of applying an Environmental Protection Agency (EPA) registered insecticide to areas where mosquito breeding has been confirmed. It is the most effective way of eliminating mosquito populations.

As an additional precaution, SCHD will conduct mosquito control activities, including truck-mounted spraying (adulticiding) of EPA-approved insecticides, **weather permitting***, in specific ZIP codes where the West Nile virus has been detected, and portions of adjoining zip codes, according to the following schedule:

Monday, August 12th – Rescheduled from August 7, 2019

8:30 p.m. – 11:30 p.m.

ZIP Codes: 38128, 38135, 38134, 38133, 38002

Tuesday, August 13th

8:30 p.m. – 11:30 p.m.

ZIP Codes: 38108, 38122, 38128, 38117, 38120, 38111

Wednesday, August 14th

Mission

To promote, protect and improve the health and environment of all Shelby County residents.

814 Jefferson Avenue ♦ Memphis, TN 38105 ♦ 901 222-9000 ♦ www.shelbytnhealth.com

8:30 p.m. – 11:30 p.m.
ZIP Codes: 38111, 38117, 38118, 38119

Thursday, August 15th

8:30 p.m. – 11:30 p.m.
ZIP Codes: 38104, 38106, 38114, 38132, 38111, 38118

Go to www.shelbytnhealth.com to view the most current schedule and the exact boundaries of each scheduled spray. New maps will be added weekly to reflect updated schedules.

Truck mounted spraying only effectively kills adult mosquitoes currently flying at the time the insecticide is sprayed. Because of this, residents are highly encouraged to be vigilant as it relates to controlling mosquito populations around their homes and businesses and preventing mosquito bites. Individuals are encouraged to practice the **4 D's**:

- **DEFEND** yourself by using insect repellent with DEET. Follow label instructions.
- **DRESS** in long sleeves and pants. Wear loose and light colored clothing when outdoors.
- **DUSK/DAWN** is the time when mosquitoes are most active. Stay indoors.
- **DRAIN** standing water and install or repair window screens.

Individuals with chronic health problems such as asthma or other lung conditions may want to remain indoors during the time of spraying. Citizens who **do not** want their residences to be sprayed should contact the Vector Control Program at **(901) 222-9715**.

* To ensure the insecticide is most effective, the scheduled spraying will be canceled if any of the following weather conditions are present for the majority of the schedule spray time:

- Rain chance of 65% or greater
- Wind speeds 11mph or greater
- Temperature less than 60 degrees Fahrenheit

Follow @ShelbyTNHealth on Twitter and Facebook for the most up-to-date cancelations of any scheduled sprayings.

Mission

To promote, protect and improve the health and environment of all Shelby County residents.
