

Section 16-88. Nuisance Abatement

- A. When dust, fumes, gases, mist, vapors, or any combination thereof escape from a building or equipment in such a manner and amount as to cause a nuisance or to violate any regulation, the Health Officer may order that the building or equipment in which processing, handling and storage are done be tightly closed and ventilated in such a way that all air and gases and air or gas-borne material leaving the building or equipment are treated by removal or destruction of air contaminants before discharge to the open air.
(Ord. No. 1265, §1, 4-25-72)
- B. No person shall cause, suffer, allow, or permit any air contaminant source to be operated without employing suitable measures for the control of the emission of objectionable odors. Suitable measures shall include permit limitations, wet scrubbers, incinerators, or such other devices as may be approved by the Health Officer.

(Ord. No. 1265, §1 4-25-72; Code 1967, §3-19; Ord. No. 3230, §1(3), 8-3-82.)
