Winter Weather Predicted For Shelby County

Rain and much colder temperatures will move into Shelby County later today. Forecasters say snow could be in the area by this evening.

Shelby County Public Works trucks have already applied brine solution to roads and bridges in the unincorporated areas. Salt and cinder trucks will be out if it snows.

“We could have hazardous driving conditions tonight and early tomorrow. Motorists need to be on the alert,” said Bob Nations, Director of the Shelby County Office of Preparedness.

The Shelby County Office of Preparedness will monitor the weather and issue additional information if necessary.
