OZONE FORECAST CODE ORANGE ADVISORY For Saturday, June 15, 2013 "Unhealthy for Sensitive Groups"

MEMPHIS – In cooperation with the Arkansas Department of Environmental Quality (ADEQ); the Arkansas Department of Health (ADH); and the Mississippi Department of Environmental Quality (MDEQ), the Shelby County Health Department has issued a "**Code Orange Ozone Forecast**" for **Saturday, June 15, 2013 for the Memphis Metropolitan Area**. The Memphis Metropolitan Area includes Shelby County, Tennessee; Crittenden County, Arkansas; and DeSoto County, Mississippi. A "**Code Orange Ozone Advisory**" indicates ozone levels are forecast to exceed the eight-hour National Ambient Air Quality Standards (NAAQS). There will be 25-cent rides on MATA buses and trolleys on Sat., June 15, during the Ozone Action Day. Individuals can call 274-MATA (6282), or visit www.matatransit.com for route information.

| Health Precautions: • For Active Children and Adults • For Persons With Respiratory Difficulties | OZONE REDUCTION TIPS RECOMMENDED DURING "CODE ORANGE OZONE ADVISORIES" |
|--|--|
| <ul style="list-style-type: none"> Limit prolonged outdoor activities during afternoon hours High ozone levels can cause nose, eye, throat, and lung irritation High ozone levels can aggravate existing conditions and lead to increased potential for illness in this sensitive group | <ul style="list-style-type: none"> Refuel cars and lawnmowers after 7:00 pm, avoid spills and do not "top off" tanks Carpool or mass transit Combine errands instead of many separate trips Drive less, especially during peak hours or hot days |

Under existing Air Quality Index guidelines, ozone levels are expected to reach the classification of "**Unhealthy for Sensitive Groups**". *The forecast exceedance for tomorrow is expected as a result of stagnant conditions, increased temperatures, and decreased winds.*

| | | |
|---|-----------|---|
| Unhealthy for Sensitive Groups (Orange) (Advisory) | 101 – 150 | Active children and adults, and people with respiratory disease, such as asthma, should limit prolonged outdoor exertion. |
|---|-----------|---|
