

Greetings,

TODAY is the last day to register to join Just Care Family Network and our community partners as we celebrate children's mental health with *Family Matters: An Educational Forum Focused on Family Driven Care*.

This forum is designed to promote greater awareness of the issues facing children with mental health challenges among local health providers, community agencies, legislators, educators, and most importantly the youth and family members who are the experts in determining the needs of their family.

Our youth have worked tirelessly to produce their own STOP STIGMA music video that we are excited to reveal to you.

Be the first to see it because it will go viral!

This two day event will also include a recognition/honors ceremony for families and supporters of JCFN throughout our 6 year grant. While federal funding ends in September 2014, we are eager to implement our sustainability strategy in Shelby County!

Light breakfast and lunch will be provided daily.

Free parking information at UTHSC is attached.

Advance Registration is required at www.shelbycountyttn.gov/JustCareFamilyNetwork.

If your organization is interested in hosting a vendor's table please email Jerica.Phillips@shelbycountyttn.gov.

See you tomorrow!

**Family Matters:
An Educational Forum Focused On Family Driven Care**

When: May 21-22, 2014 9a.m.-3p.m. daily
Where: UTHSC Student Alumni Center
