4. Watch the webinar

Once you've finished setting up your audio, you're all set! Depending on whether the webinar has started yet, you'll see one of the following:

- If you see the message "The meeting will begin when the organizer arrives," then the organizer has not yet started the broadcast. Once they do you'll be able to hear the audio.
- If you see a new window open with the message "Waiting to view <organizer>'s screen", then the webinar has officially begun but the organizer is not presenting any visual content. You should be able to hear the audio at this point.

That's it - now you can sit back and enjoy the webinar!
